Individual and Junior Members

Professional scientists whose research is directly relevant to some branch of astronomy are eligible to apply as **Individual Members**. Individual Members are, normally, admitted by the [Executive Committee](#) on the proposal of a National Member.

Junior scientists who have completed their PhD studies between 2015 and 2020 and who are in the initial phase of the career of a professional researcher in some branch of astronomy or a related field may be admitted to the Union by the [Executive Committee](#) as **Junior Members**, for a period not exceeding 6 years.

Individual and Junior Members listed in the IAU Directory have a valid, public email, and are affiliated to at least one Division. They are labeled as "Active Members". For corrections and updates, please contact iauinfos@iap.fr. Any members remaining Inactive for more than 3 years will be removed from the IAU lists.

Additionally, while only Active Members are listed in the IAU Directory, you may still search for Active, Inactive or [Deceased Members](#) from the menu on the right.

For gender statistics click [here](#).

Total number of IAU Individual and Junior members: **13119** (of which 987 are Junior members).

Number of **Active** Individual and Junior Members in the IAU Directory: **12550** (of which 757 are Junior members).
